**Excisions:** Excisions Recommended And Made

**Reasons for excisions:**

Two excisions are necessary to remove an ejaculation sequence, a portion of which plays in slow motion at the start of the feature. These sequences degrade, dehumanise and demean the female participant to a high degree by presenting the sexual humiliation and defilement of a woman as titillating and entertaining. The effect of removing these sequences also lowers the overall exploitative tone of the DVD.

The distributor has partially complied with the requested excisions. One of the excisions was made in its entirety, while a substantial portion of the degrading, dehumanising and demeaning conduct has been removed from the other relevant scene. This is sufficient to warrant a classification of objectionable except if the availability of the publication is restricted to persons who have attained the age of 18 years.
